

ABOUT US

***“Attention to detail. Focus on quality.” is more than a tagline to the CHOICE team.
It’s our core belief when approaching everything we do.***

DETAIL

As a full-service construction company, we’re able to apply a variety of lenses to a project regardless of its stage in development. We ask the right questions upfront to better define the details that are necessary to complete a project on-time and on-budget.

We pay close attention to the plan vs. progress, project collaborators, team capacity and many other variables to ensure we quickly identify “yellow flags” or areas that require additional attention to ensure minimal disruption of a project’s requirements.

QUALITY

Our focus on quality goes far beyond competitors. We believe in working with a network of trusted partners to ensure our benchmark for quality is met every time. From the first communication to completion, our team is hands-on and ready to get to work. Because we’re a multi-generational, family-owned business, we take a “all hands-on deck” approach and work exceptionally well together to deliver for our Clients. Based on our extensive experience, we’re able to provide a realistic timeline and budget, and promise reliable communication. You will always have access to the entire team regardless of title.

BY THE NUMBERS

Throughout our decades of experience, we’ve honed what we do best to provide you with the ultimate solution for your project’s needs.

PROJECTS

OUR ADVANTAGE

We take great pride in partnering with businesses and projects of all sizes. As a small team of experts ourselves, we know that, “big things come in small packages.”

We’ve worked with 50+ nationally recognized businesses and deeply appreciate the expertise we’ve gleaned from those experiences. Our understanding of the “big players” and complex development requirements have provided us with a robust skillset and the highest standard of professionalism for our team.

As our own business evolves and our strategy is refined, we believe we possess a unique expertise with projects between \$100K to \$3M and 1,000 to 50,000 square feet. In that range, our team can identify opportunities and fully manage the special challenges, and have identified this niche market as the driving force behind our future growth.

However, our past projects and active development fully lends itself to projects of any size. We are confident that we’re the right CHOICE for your next project.

New construction

Design-build solutions

Development and redevelopment

Interior and exterior alterations

Construction management

Buildouts

Refreshes and retrofits

Renovations and restorations

“

“They have done 10 different projects for me over the years and are consistently on-time and on-budget. They are honest, reliable, hands-on and they offer full-service.”
